### MANILA HAS GIVEN UP.

Dispatches to Madrid Announce the Capitulation.

### SPANIARDS GLAD OF PROTECTION FROM INSURGENTS' FURY.

Washington, July 27—Special—Official news confirming the Madrid report that Manila had surrendered to the American forces is momentarily expected. The authorities make no secret of the fact that an understanding has existed for some time between Augusti and Dewey, and that the Spanish force will surrender as soon as Americans express a readiness to assume the responsibility for the government of the city.

Gen Merritt has no doubt arrived at Manila, and has assumed command. It is officially intimated that Aguinaldo's dictatorship has not been recognized, but on the contrary Gen. Anderson will treat the insurgent forces just as Shafter did at Santiago.

London, July 27—Special—It is taken for granted at Madrid that Manila is now in full possession of the Americans. The last dispatch from that port stated that an attack was expected hourly, as the American reinforcements had arrived and the Spanish garrison was powerless to resist a combined land and naval assault. The only condition the Spanish commander would adhere to was that the city should not be turned over to the insurgents.

### Cuba May Be a Burden.

Washington, July 27—Special—If peace is declared as the result of the impending negotiations—a result not unlikely—the United States will be confronted with the serious problem of how to govern Cuba. It is not unlikely that the government will have an elephant on its hands. The opinion among best informed officials is that under the most favorable conditions the Cubans will not be able to establish and maintain a stable government for many years to come. It follows that the United States will have to keep a strong hand on the island for an indefinite period, and the belief is gaining ground fast in Washington that annexation will be the ultimate fate of Cuba. There are two classes in Cuba, separated by an implacable hatred. The masses of the people are not well fitted for self-government, and it will require long and steady control to bring the island under a peaceful and stable rule. The United States is likely to be embroiled in many difficulties in consequence.

### Our Claim on Porto Rico.

Washington, July 27—Special—Spain's plea for peace comes too late to prevent the loss of Porto Rico. The landing of Gen. Miles and the raising of the American flag at Guanica give the United States claims upon the island that cannot be ignored. Under rules of international law we are in technical possession, and cannot be dispossessed without receiving an equivalent in some form. This advantage will be maintained to its full value. It is probable, however, that before peace negotiations proceed so far as to require an armistice Gen. Miles will have taken practical possession of the whole island, and Spain will be shut out from any claim for its restoration. It is safe to say that the Spanish flag will not be permitted to float over Porto Rico after the close of the war.

### Naval Officers Report.

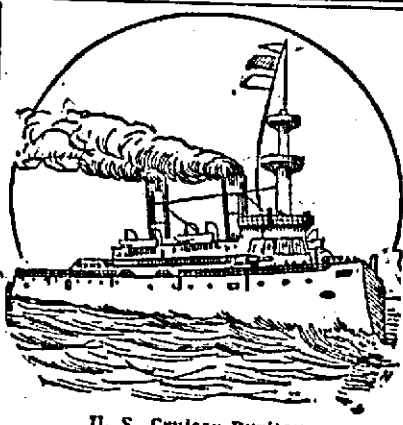

Washington, July 27—Special—The reports of Capts. Chadwick, of the New York, Taylor, of the Indiana, Phillip, of the Texas, and Commander Wainwright, of the Gloucester, on the destruction of Cervera's fleet were made public today. They do not differ materially from the report of Sampson, Schley and other officers. Chadwick, of Sampson's flagship, admits his vessel was too far away to get into the fight when the Spanish fleet came out of the harbor.

### At Cape Haytien.

Cape Haytien, July 27—Special—The cruiser Montgomery and the monitors Puritan and Amphitrite arrived here yesterday.

### Alfonso Has the Measles.

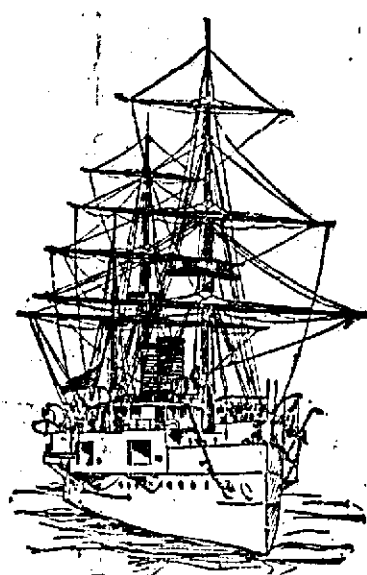

London, July 27—Special—A Madrid dispatch says King Alfonso is suffering from an attack of the measles.

U. S. Cruiser Puritan.

United States Vessel Vesuvius.

United States Cruiser Newark.

### Treachery Bars an Armistice.

Washington, July 27—Special—The Spanish government is already getting a foretaste of the evils attendant upon a bad reputation. The acts of its commanders in Cuba in violating the terms of their surrender have made the president reluctant to grant an armistice pending negotiations for peace. He fears, and with good reason, that the Spaniards are insincere and would take advantage of an armistice to make more vigorous preparations for a continuance of the war. Honor is an unknown quality among the Spaniards. Their promises are made only to be broken, as the government has learned to its cost. It may therefore be safely said that no armistice will be granted unless the Spaniards are hedged about with such rigorous conditions as shall render a violation of the truce fraught with the gravest consequences to them.

### BISMARCK IS FAILING SICK AT JACKSONVILLE

The Great German Statesman Is Rapidly Approaching His End—His Sons Summoned.

Berlin, July 27—[Special]—The reports received from Friederichshagen this morning fully confirm the previous statement that the condition of Bismarck is critical. He has been without sleep for three days and is unable to take drink. The dropsy is rapidly creeping up from his legs, and it is feared the end is near. His sons have been summoned to his bedside.

Condition of the Janesville Soldiers in the Hospital At Camp Cuba Libre

Camp Cuba Libre, Jacksonville, Fla., July 27—[Special]—The condition is about as yesterday. Two more, also reported this morning, Artiller Schmitt and Private Bladness both have malaria. Privates Ludke, Gorgoll and Frank have been sent to division hospital.

### WEATHER FORECAST.

Chicago, July 27—[Special]—Forecast for Wisconsin: Probable thunder storms tonight and Thursday.

### DO NOT OPPOSE SCOFIELD

Prominent Citizens of Marinette Who Support the Governor.

Marinette, Wis., July 27—W. A. Brown, member of the state republican committee, and Assemblyman George W. Taylor are indignant at the statement in a Milwaukee paper on Monday that they are opposed to the renomination of Governor Scofield. Mr. Brown said:

"I am for Governor Scofield, and will do all I can to have him renominated. The article referred to is a pure fabrication, as I have never favored La Follette. Furthermore, he said, 'I believe Marinette county is for Governor Scofield, and without doubt will send a solid delegation for him.' Mr. Taylor is equally emphatic in saying that he is heartily in favor of Gov. Scofield's renomination. Other prominent republicans who were spoken to today expressed themselves for Scofield.

Norman Black said: 'There have been a few disappointed office-seekers here who were sore at the major, but they are for him now and never were for La Follette.' At the republican primaries last evening the opinion was universal that Gov. Scofield should be renominated."

### High Church Causes Trouble.

The cause of the trouble in the Arkansas Protestant Episcopal diocese is one of churchmanship. The Episcopal church is comparatively weak in the state, and has long been pronounced a heretic. There are four high church dioceses, namely, Fond du Lac, Milwaukee, Chicago and Springfield, though there are others in which the bishop has high church leanings. The four named, lying contiguous, have either consciously or unconsciously influenced a nearly adjacent diocese into the secession, by the narrow majority, of one, of a pronounced high church ritualist to be bishop conductor. Contrary to general expectation in the church, the standing committees of other dioceses, which must give their consent before a priest can be consecrated bishop, are promptly according those consecrations, that the diocese of New York having just been given. This action of New York will have great weight.

### POWDER MILL BLEW UP

Five Men Killed and Eleven Injured In An Explosion at Pinola, Cal.

San Francisco, July 27—[Special]—An explosion in the powder mills at Pinola this morning wrecked the building killed five and injured eleven.

### KILLS HERSELF AT SAN DIEGO

Prominent Milwaukee Woman Commits Suicide In California.

San Diego, Cal., July 27—Mrs. Alice Alkin Brewer, of Milwaukee, who arrived here six months ago, for her health, committed suicide last night by shooting herself through the head with a revolver. Her husband, Hugo Brewer, a prominent retired real estate dealer in Milwaukee, joined her about three weeks ago. No cause is known for the suicide. Mrs. Brewer was a daughter of Andrew J. Alken, one of the proprietors of the Evening Wisconsin.

### BELOIT BARBER PASSES AWAY

Was a Veteran of the Rebellion and Widely Known and Respected

Beloit, Wis., July 27—[Special]—Frank Moore, who has been a barber for a long time, and well known in this city, died yesterday from a disease of long standing, although his case had been serious but a short time. He has been a resident of this city for a long time, and was a soldier in the civil war and one of the best known men of this city. He leaves a widow, one son and two daughters.

### Church Buried in the Sand.

Engineering Magazine: There are several instances where lighthouses have been increased in height because of the sand which has engulfed them. In one place on the New Jersey coast I once stumbled upon the corner of an old rail fence which had been buried and exposed again on the ocean side. It marked the site of an old field. On the North Carolina dunes, chimneys projecting above the sand belong to the houses of an old fishing village. In France and other parts of Europe villages have been buried. At Soule in Gascony a cross was discovered projecting above the sand. Further investigation showed that it was attached to a steeple, and later a well-preserved church of the thirteenth century was excavated. The church is now in use.

## SPAIN ASKS FOR PEACE

French Ambassador Pleads the Cause of the Defeated Dons.

### PRESIDENT WILL INSIST ON HIS ORIGINAL DEMANDS.

Washington, July 27—Special—The cabinet is discussing the overtures for peace made by Spain through the French ambassador. It is said by those in the confidence of the administration that no terms will be granted that do not contemplate the independence of Cuba, the cession of Porto Rico to the United States, and an American protectorate over the Philippines, besides an indemnity from Spain for the cost of the war. Negotiations upon any other basis will be useless.

### Taken By Surprise.

Washington, July 27—Special—The diplomatic corps is excited over the Spanish plea for peace. It came unexpectedly. The move of the French ambassador took the other members of the corps completely by surprise, as they had well known among themselves that all peace talk up to this time had been fanciful, and they had no reason to expect that a move would take definite shape so quickly.

### A Lively Fight.

Key West, July 27—Special—A lively little battle was fought at Ranes on July 23 in which the participants were a Spanish column, a body of insurgents, and members of the Wanderer expedition which left here with the Americans and provisions for the insurgents. The Spaniards made the attack while the vessel was being unloaded, but after a fight lasting four hours the Spaniards were forced to retire. Two of the Wanderer's crew and a number of Cubans were wounded. The Spanish loss is unknown.

### Will Answer Tomorrow.

Washington, July 27—Special—The president by tomorrow will communicate the answer of the United States to Spain's peace proposal. If Spain gives assurance that an armistice will be followed by a treaty of peace it is probable the president will agree to an armistice.

### Leave Chattanooga Camp.

Chattanooga, July 27—Special—Gen. Grant's brigade left for Newport News last night. The Second Kentucky and Fifth Illinois broke camp today, and are now packing up preparatory to going to the same place. The Thirty-first Michigan and Hundred and Sixtieth Indiana may go this week.

### Advices From Havana.

Key West, July 27—Special—The gunboat Vicksburg arrived from off Havana this morning. She reports all quiet. On July 10 a new battery west of Santa Clara fired twice at the Vicksburg, but did no damage. The batteries sustained considerable injury.

### A Foolish Protest.

Madrid, July 27—Special—It is reported that the government will protest to the powers against a continuance of the landing of troops in Porto Rico by the Americans after Spain has sued for peace.

### The Spanish Prisoners.

Washington, July 27—Special—A dispatch just received from Shafter confirms former advices that the Spanish prisoners to be transported would be between twenty-three and twenty-four thousand.

### Discuss a Problem.

Madrid, July 27—Special—The cabinet last night discussed the consequences likely to follow the landing of the American troops in Porto Rico.

### Nurses for the Troops.

New York, July 27—Special—The Olivette sailed this morning for Santiago with nurses, physicians, delicacies and \$700,000 for the troops.

ALL THE NEWS OF  
THE BADGER STATEWORK IN SIGHT FOR OSHKOSH  
STRIKERS.

West Superior To Be Tapped by the St. Paul Road—International Revenue Receipts Are Large—Chinch Bugs in the Wheat—Fifty Years a Priest.

Oshkosh, July 27.—Reports regarding the strike, directly and indirectly, that there are a large number of idle men in this city, have brought numerous applications for laborers to Oshkosh.

Several letters asking for men to work on farms have been received from the Dakotas and Minnesota, and at least fifty men and boys have gone west during the harvest. Parties of two and three are leaving for the harvest fields daily. Today a party of eight left.

Chief Welsbrod is in receipt of a letter from a responsible resident of Antigo in which he promises steady employment to 100 men. He wants them at once, and will pay from \$12 to \$20 per month and board. About a dozen laborers will leave for Antigo in a day or two.

This demand for labor is thinning down the ranks of idle woodworkers rapidly.

Will Build to West Superior

Chippewa Falls, Wis., July 27.—Officials of the St. Paul railway company were in the city yesterday on a tour of inspection. Aside from their visit or minor affairs it was learned that the trip was also for the purpose of looking over the ground with a view to the extension of the road from this city to Superior. One official said that the plan was now under consideration and would be acted on within a few weeks. It is the intention in the event of its going through to have it so surveyed as to connect with some of the larger logging roads in the northern part of the state, pass through Hayward and from there on a direct line to Superior.

Chinch Bugs Appear

Oshkosh, Wis., July 27.—It is learned from farmers in different parts of the county that the chinch bugs are creating havoc among the wheat fields, and indications at present point to a small crop. One farmer says that in the section of the country from which he came, fields which promised an exceptionally good harvest of about twenty bushels to the acre are almost ruined by the bugs. Other cereals are also attacked, but some of the other crops, especially barley, have been harvested.

Fifty Years a Priest.

Oconomowoc, Wis., July 27.—The fiftieth anniversary of the ordination of the Rev. Hugh McMahon was celebrated at St. Jerome's church yesterday, the exercises opening at 10 o'clock with solemn high mass with the Very Rev. Francis V. Nugent, of St. Louis, as celebrant, the Very Rev. J. J. Keogh, of Milwaukee, as deacon and the Rev. J. O'Keefe, of Watertown, as subdeacon. Archbishop Kettner, of Milwaukee, assisted. The interior of the church was beautifully decorated with flowers and there was special music. The visiting clergymen who assisted were the Revs. Charles Schmidt, F. P. O'Reilly, N. Moeres, Hanley, Altmaier, Keogh, O'Keefe, E. Reilly, Wrenn, Harlin, Howe, Murphy, Boland, Ryan, McCarty, Nobrehlen, Filles, J. Ryan, P. Murphy, McFarland, Becker, Thomas, Pope, Hodnett, McGillicuddy, Nuebe, Fagen, Fairbanks, Tooley, Taubner, F. Reilly, Burke, Carden and Collins. The visiting clergymen were entertained at the James house, where a banquet was given them this afternoon.

Flour for State Institutions.

Madison, Wis., July 27.—The state board of control has signed a contract with the Lattman Milling company, of La Crosse, to supply flour for the state institutions for August. The contract calls for "Straight Patent," at \$4.05 a barrel in bulk, and \$4.20 in sacks.

Robbed in Chicago.

Chicago, Ill., July 27.—J. L. Meyers, a merchant of Oshkosh, Wis., was robbed of \$1,840 today. The money was taken from his pocket in a crowd near the Northwestern station. Meyers was not aware of his loss until he reached the depot to purchase a ticket for home. Besides the cash a certificate for \$400 was taken.

La Crosse, Wis., July 27.—A. E. Bleckman, a prominent lawyer of the city, has announced himself as republican candidate for the nomination for congressman in the seventh district. The convention will be held Aug. 11. Other candidates are the present congressman, Michael Griffin, of Eau Claire, and J. J. Esch, of this city. Mr. Bleckman was a member of the legislature some years ago.

Internal Revenue Receipts.

So far in the month of July over \$500,000 has been paid into the office of the collector of internal revenue at Milwaukee, and it is expected that un-

der the revenue law \$10,000,000 a year will be turned over to the United States treasury from the Milwaukee office. This will be an increase of about \$6,000,000 a year.

The notice given by Collector Fink that in case the keepers of bowling and pool alleys do not pay their special tax by August 1 a penalty of 50 per cent. would be added had a most salutary effect.

## AS SEEN BY A TRAVELER

Uncle Sam's New Holdings in the Pacific Graphically Described.

Recent observations in the Philippines are summed up by a traveler in the following terse and witty way:

"The law of the country regards every inhabitant as a Roman Catholic. Any other form of religious worship, except the Catholic, is absolutely forbidden. Every village and every city has at least one church, generally the best and handsomest building. The cathedral of Manila, controlled by the Jesuits, cost \$100,000 and took twelve years to build. The interior is all marble and the finest wood carving. Education is entirely in the hands of the church. There are no secular schools nor hospitals either. Children go to school only twice a week, for one hour each time. Instruction consists mainly in the teaching of a few bible texts and stories. Writing is not taught at all and reading only in the advanced classes. (This refers only to what we would call public schools intended for the instruction of the masses. The children of the better classes attend private schools in which more instruction is furnished. They are also without exception, in the hands of the clergy. Translated.

Newspapers and all publications are under the censorship of the Archbishop of Luzon. The only newspaper is printed in Spanish and every line of it must pass the censor.

"All marriages must be solemnized by a priest. Some time since a civil marriage was contracted before the English consul. It caused such excitement that a bloody riot was barely avoided. Ships are not allowed to unload on holidays unless the consent of the church has been obtained for a monetary consideration. More than one half of all the days of the year being holidays the church gets a considerable revenue out of such permits. After ten o'clock in the evening no more music is allowed in the houses, except by a special permit from the church.

The largest business in Manila is done by the lottery. Drawings take place monthly sizes being from \$5 to \$80,000. Public officials as well as the archbishop take part in its management. State and church get a monthly profit of \$1,300,000 out of it and this constitutes, in fact, one of the chief revenues of both government and church.

"Farm laborers earn about five cents a day. This must suffice for the maintenance of the family and the payment of an annual tax of from \$1.50 to \$25. A large share of all the taxes goes to the church. The sale of farm products for money is prohibited, only an exchange for other commodities is allowed.

"There is a special tax on coconut palms, butcher's meat, workshops, mills, oil-presses, etc. The chief amusement of the natives is cockfights. But they have to pay very dearly for licenses."

## DELAVAN LAKE ASSEMBLY

Large Crowds Are in Attendance From Southern Wisconsin

Scores of people from Janesville are on the grounds of the Delavan Lake assembly and all are pleased with the arrangements made. The grounds are the best on the lake. Eighty tents were pitched in a shady grove near the lake the first day and as many more applications for tent space will be granted tomorrow. Already the grounds allotted to the camp take on a homelike appearance. Hammocks are swinging in picturesque places and the summer assembly girl with sailor hat and shirt waist contributes her charming personality in large numbers.

The program committee made a wise selection when it engaged Dr. Tallmage to open the assembly yesterday. No man could have been a greater drawing card.

In his introductory remarks he gave an original formula for a summer assembly: "You take," said he, "a whole lot of John Wesley's sermons, a liberal allowance of the Westminster catechism, and an equal proportion of Episcopal liturgies. Mix them thoroughly and add water sufficient from a baptistry. That's a summer assembly, and one drop of it will cure the worst case of bigotry in Christendom."

At the close of the lecture there was an intermission of half an hour, after which people who chose met at the auditorium tent for an hour of bible study under the instruction of Prof. Hays, of Evanston.

The entertainment of the evening was furnished by Charles F. Underhill, the impersonator, who gave a portrayal of Rip Van Winkle. The time preceding, and between the acts was agreeably filled with songs by the Lemmel quartette and by Miss Ada M. Sheffield, with Mrs. Lucille Clark Emery presiding at the organ.

TRINITY CHURCH  
AND ITS SPHEREMUCH ENERGY DISPLAYED IN  
THE ORGANIZATION.

New Life Has Recently Been Infused Into the Organizations, Designed to Promote Efficiency in Local and Missionary Fields—All Are Working in Harmony.

Ever since the advent of Rev. F. L. Maryon as rector of Trinity church great energy has been displayed in the several societies of the church. Many improvements have also been made around the church, new sidewalks and "barbing" put in and the grounds beautified generally.

The choir of the church, which consists of boys and young men, is at present enjoying life on the banks of Sugar river near Brodhead. The fund to send the boys there was mostly raised by personal subscription through the exertions of the rector. The choir is in a flourishing condition and only needs a few more voices to fill it up.

The Young People's Society of the church has for some time past been trying to raise money by having the members of the congregation use a certain brand of soap and send the wrappers to the society. The society is aiming to get about 100,000 wrappers to turn in to the company manufacturing it, receiving in return a handsome donation.

Of the different societies of the church the St. Agnes Guild endeavors to raise money to further the church improvements. With such an end in view the Guild frequently gives suppers and holds sales of fancy work. The officers are: President, Mrs. Frank Wood; vice president, Mrs. Smith; secretary, Mrs. M. Smith; treasurer, Miss Fox.

The Woman's Auxiliary's special work is that of missions, and much has been done in and out of the church. The Auxiliary is presided over by Miss Croft as president, with Mrs. Ransom as vice president, and Mrs. E. Croft as secretary.

The Junior Auxiliary is organized for the same purpose as the Women's Auxiliary. It is composed of young ladies with Mrs. Willis as directress, and Mrs. Potter as assistant. The officers are: Miss Nellie Dudley, president; Miss Lillie Allen, vice president; Miss Mary Stevens, secretary, and Miss Alma Wells, treasurer.

In the Brotherhood of St. Andrew Charles Knippenberg is director and Harry Ransom, secretary.

The young ladies have a sewing school which meets every Saturday with Mrs. C. E. Ransom as matron. The officers of the church and Sunday school are:

Rector—Rev. F. L. Maryon.

Wardens—J. O. Fox and John Thor-

oughgood.

Lay Readers—Messrs. Denniston,

Ransom and Knippenberg.

Clerk—H. E. Ransom.

## LEAVE VALUABLES BEHIND

Patrons of Business Houses Forget to Carry Away Their Pocketbooks

A prominent west side business man thinks that his customers have a mania for leaving articles at his place of business. Lundies, umbrellas, handkerchiefs and pocketbooks are left haphazard around his place. Last week there was as many as half a dozen pocketbooks left with contents ranging from three cents to \$20. The same customers have the labor, however, of coming back for their lost articles.

## SPENT A PLEASANT EVENING

Outing Club Has a Merry Time at Crystal Springs Park.

The members of the Outing club held their regular fortnightly supper and dance at Crystal Springs Park last evening. The usual game of ball was played by two nines picked from the male members, and furnished enough amusement and excitement to last until the next outing. Supper was served at 7 o'clock, and the balance of the time until 10:30 was spent in dancing.

## PASSED THE DAY IN THE PARK

The Ladies' Afternoon Euchre Club Visit Crystal Springs.

The Ladies' Afternoon Euchre club met in their usual session today. This time they took advantage of the proximity of Crystal Springs and found refuge from the heat of the city parlors among the cooling shade trees at the popular river park. Delightful refreshments were served, and a most pleasant afternoon was spent. The steamer Columbia carried the party to and from the park.

To the Republican Voters of Rock County

As a report has been circulated that I am not a republican, I would say in reply that I never voted, any other ticket than the republican, have taken the "stump" for the party in the last three campaigns, have been correspondent for the Protective Tariff League for eight years, am president of the Republican club of the Town of Rock, elected unanimously, elected town clerk, an office which I now hold, without a scratch on the republican ticket.

Believing that such a record entitles one to be recognized as a republican in good standing, I most respectfully announce myself as a candidate for county clerk subject to the will of the republican convention of Rock county and solicit the support of republican friends in my behalf.

Very respectfully yours,

F. P. STARR, Afton.

Ultimatum for Colombia.

Rome, July 27.—Admiral Candiari, it is announced in a dispatch received here from Cartagena, Colombia, last Saturday, formally demanded that the Colombian government accept President Cleveland's award in the Cerruti case in its entirety and to guarantee its full execution. The Italian admiral insists upon a definite reply in twenty days. Meanwhile the Italian warships will visit other Colombian ports.

NOTICED THIS BEFORE

You Probably Have and May Have Spoken About It.

The reader of this newspaper if he takes the time and trouble to look carefully through its columns, will probably find half a dozen statements tacked on to the foot of reading notices about proprietary articles. Note this fact. In each and every instance as far as Janesville is concerned, as far as the reader's knowledge of the party is concerned he might just as well live in the moon. Make another note of this. The only remedy on the market which gives testimony at home, local proof in every town and city in the Union, to back up its claims, is Doan's Kidney Pills. They all try it but they cannot do it. Why they are unable to do it can safely be left with the reader to draw his own conclusions. Here is Janesville proof for Janesville readers.

Mr. Geo. Pratt, of 201 S. Main St., salesman at Brown Bros. Shoe store, says: "I feel that I can guarantee Doan's Kidney Pills for curing kidney complaint. I was subject to it for several years, and a doctor treat me for quite awhile, and as long as I took the medicine I was helped, but as soon as I quit the trouble returned. I took other remedies, but without being better. Finally I learned about Doan's Kidney Pills. I procured them at the Janesville Co's drug store and took them. They cured me. My symptoms were mostly backache, the kidney secretions contained sediment and were too frequent in action. You are welcome to use my name as one who recommends Doan's Kidney Pills, and I shall be glad to speak a good word for them at all times."

DEFINES "THE MACHINE"

President Pullen, of the Milwaukee branch of the La Follette machine, recently described "the machine" as follows:

"It is an organization without a name, without constitution, by-laws, or officers and without stated time or place of meeting. Its membership has been limited; its executive sessions have been secret. Its plans have been matured and carried into execution with consummate ability and with all the zeal that an overflowing treasury has been able to inspire. Its servants ramify through all classes and grades of society; it numbers them by the thousand and pays them well. It is a mutual benefit association that exists for revenue only. It has studied commercial statesmanship closely and raised it to the rank of a fine art. This unnamed and unofficial organization is known as 'the machine.'"

"It is a fungus growth that has attached itself to the republican party for its own emolument, but its roots have extended to and intertwined themselves with other political parties whose policy they have controlled to a far greater extent than they have over controlled the republican party."

As Mr. Pullen is one of the chief cogs in the La Follette machine, his description of that machine may be regarded as official.

LA FOLLETTE AND THE PRESS

Keep Bull Busy.

Wausau Record—In the last issue of The State Assemblyman A. E. Hall starts out to explain his own record. If he covers all the points raised he will have little time to devote to Governor Scofield hereafter.

Milwaukee Evening Wisconsin—Gov. Scofield is the man who originated the idea of cutting off unnecessary expenses in the state capital. He made a good fight and it is a fact that a more economically conducted administration than his has never been in power at Madison. Assemblyman Hall, who has never been candid and fair in his criticism of Gov. Scofield, and who is acquiring among the people the reputation of a politician with

as ax to grind, cannot expect his personal assertion to have as much weight as Supt. Scott's official statement.

Not Buying Votes

Sheboygan Journal—La Follette is not buying his nomination—not at all. But the La Follette machine is sending out large numbers of its new paper, The State, with the subscription paid a year—by the machine.

Cannot "Turn About"

Madison State Journal—The La Follette machine organ says the people will judge Gov. Scofield, "not by his talk, but by his official acts." It would be impossible to judge the La Follette faction by this standard. They have no "acts;" it is all "talk" with them.

Family of Sailors.

Berlin Journal—A. R. Hoard has a new steamer on Lake Koshkonong. This is not the first navigation venture by the Hoard family. W. D. had a boat on Salt river a few years ago but it went to smash on Bennett Law rapids one cold day in November. Since then until this Koshkonong boat was launched the family have been content to cruise close to shore on Battlement Creek.

WHY THEY WANT SCOTFIELD.

Mr. La Follette says "I want your vote, because I want to be governor," and promises to reform society and reconstruct the political system of the country—to conform to the ideas of the La Follette machine Governor Scofield says: "My record is an open book," and asks the public to judge him by his acts, promising if elected, to give his office the same attention in the future that it has in the past. The republicans of the state must choose between these two men, and it is a compliment to the people to say that the sentiment is almost unanimously in favor of the quiet business man—Governor Scofield—and against the noisy man of promises—Mr. La Follette.

REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.

To the Republican Electors of Wisconsin:

By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.

In accordance with resolution recommended by the state convention and formally adopted, the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district conventions, and the names of the delegates so elected shall be certified to the State Central committee by the chairman of said assembly district, in all other cases delegates shall be elected by county conventions.

Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.

Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be held on a notice of not less than four weeks; all town or ward caucuses as primaries to state convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central committee headquarters in Milwaukee immediately upon their election; in every case giving the names in full and postoffice address.

EDWIN D. COLE, Chairman.

JOHN M. EWING, Secretary.

Rock county will be entitled to 33 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

The brigade will be followed by the Third battalion of the Sixteenth Pennsylvania, which arrived after the departure of the regiment for Porto Rico.

Miles Will Use Artillery.

Washington, July 27.—Gen. Nelson A. Miles will not needlessly sacrifice the lives of his men in the capture of San Juan, Porto Rico. His plans contemplate a blazing of the way to the gates of the city by the use of heavy and light artillery. He has persuaded the war department to send him all the available guns in the United States. Unless it is absolutely necessary there will be no more charges similar to the dash the Americans made at Santiago.

Violate Terms of Surrender.

Guantanamo Bay, July 27.—The Prairie arrived here from Nipe Bay last evening and reported all quiet. The Spaniards last night sunk the Spanish gunboat Sandoval, which has been lying near Calanamera. This is looked upon as being a gross breach of the terms of the surrender, of which the Spaniards then had knowledge, especially considering the fact that food had been sent by the United States navy to Calanamera.

A POPULAR MISTAKE

Regarding Remedies for Dyspepsia and Indigestion.

The national disease of Americans is indigestion, or in its chronic form, dyspepsia, and for the very reason that it is so common many people neglect taking proper treatment for what they consider trifling stomach trouble, when, as a matter of fact, indigestion lays the foundation for many incurable diseases. No person with a vigorous, healthy stomach will fall a victim to consumption, many kidney diseases and heart troubles date their beginning from poor digestion; thin, nervous people are really so because their stomachs are out of gear; weary, languid, faded out women owe their condition to imperfect digestion.

When nearly every person you meet is afflicted with weak digestion it is not surprising that nearly every secret patent medicine on the market claims to be a cure for dyspepsia, as well as a score of other troubles, when, in fact, as Dr. Werther says, there is but one genuine dyspepsia cure which is perfectly safe and reliable, and moreover, this remedy is not a patent medicine, but it is a scientific combination of pure pepsin (free from animal matter), vegetable essences, fruit salts and bismuth. It is sold by druggists under name of Stuart's Dyspepsia Tablets. No extravagant claims are made for them, but for indigestion or any stomach trouble, Stuart's Dyspepsia Tablets are far ahead of any remedy yet discovered. They act on the food eaten, no dieting is necessary, simply eat all the wholesome food you want and these tablets will digest it. A cure results, because all the stomach needs is a rest, which Stuart's Dyspepsia Tablets give by doing the work of digestion.

Druggists sell these tablets at 50 cts. per package, Circulars and testimonials sent free by addressing Stuart Co., chemists, Marshall, Mich.

## HARMONY WILL SURELY PREVAIL

### JAS. E. HEGON OUTLOOK IN TWO CONGRESSIONAL DISTRICTS

Mr. Minor's Constituents at Green Bay Are Well Pleased with His Course—Mr. Cooper Sure of Re-election in the First, Despite Bitterness of Opponents.

James E. Hegon, superintendent of the new intermediate prison now being built at Green Bay, was in Milwaukee yesterday. Mr. Hegon spent Sunday with his family at Lake Geneva. He said there was not much political activity in the Eighth Congressional district, and that there seemed to be no opposition to the renomination of Congressman Minor. Mr. Hegon said that in the Green Bay district T. J. McGrath was talked of as the republican nominee for member of the assembly, though he had not finally decided to be a candidate. Mr. McGrath was a member of the last assembly and it was through his efforts that the appropriation bill for the new prison was passed. The work of the new prison is being pushed with all possible speed. There is some difficulty about securing the iron for the Carnegie factory is rushed with important government orders.

#### Cooper Will Win.

In regard to political affairs in the First congressional district, Mr. Hegon said there seemed to be usual activity in nearly every county. He said that there was considerable opposition to the renomination of Congressman Cooper, but he thought the republican would be given another term. In Mr. Hegon's opinion Mr. Cooper will go into the convention with the solid support of Rock and Walworth counties and with part of the Racine and Green county delegations. Mr. Pettit, he thought, would have Kenosha county, and Mr. Osborn La Fayette county. Mr. Hegon said that if it became evident as the campaign progressed that Mr. Cooper was going to be defeated, Walworth county would probably present a candidate.

## INJURED IN A RUNAWAY

Mrs. E. P. Doty Has a Narrow Escape From Serious Hurts

Mrs. E. P. Doty had a close call to what might have been a serious accident Monday last. While out driving with her little daughter, the child in some way fell from the buggy between the wheels. In trying to secure her, Mrs. Doty also fell, frightening the horse into running. The wheels passed over both mother and child, inflicting painful though not serious injuries. That the accident did not have worse results is to be wondered at.

## DEMOCRATIC CONVENTIONS

County Committee Fixes the Dates For the Gatherings of the Unaffiliated

The democratic county committee convened at the Court House at 3 o'clock this afternoon. The convention was called to order by Chairman Flordan and the date of the county convention fixed for Monday, Aug. 22 at 2 p. m. at the Court House. At the same time delegates will be elected to the state, congressional and assembly conventions. The success will be held August 20 at the usual hour.

Among other business transacted was the appointment of three inspectors for the new Fifth ward of Beloit, they being P. E. Mills, James Cadman and William Butler, after which the meeting adjourned.

#### Echoes in Mammoth Cave.

Our guide asks us to keep silent; then, lifting the heavy, broad paddle with which he has been propelling our boat, he strikes with all his strength the flat side on the surface of the water. Instantly the subterranean thunders of this under-world are let loose. From all directions come rolling waves of sound, multiplied a thousandfold, receding, and again returning with increasing volume, lingering for many seconds, and finally dying away in sweet, far-away melodies. Then, when the last faint sounds have ceased, he agitates the water with his paddle, and asks us to listen. The receding waves, reaching cavities in the sides of the overhanging arches, break the stillness with sweet bell-like sounds. Some notes, striking the key-note of the rocks, multiply the musical melody; some notes are soft and low; others are loud, almost with an alarm-bell clangor. This music, such as cannot be heard elsewhere on earth, gradually dies away in receding echoes, coming over the waters from far-away hidden chambers. The echo is not such as we hear above ground or in buildings, but a succession of receding waves of sound, lasting for about thirty seconds, and adding an indescribable melody to all sounds, whether from shouting or from instrumental or vocal music.

### BAD MATERIAL ON NORTH MAIN STREET.

Not Another Foot Should Be Built Unless Proper Material is Forthcoming—Contractor Declares to Have Done His Best, But to No Avail.

Much protest is heard in regard to the new pavement on North Main street. Mayor Thoroughgood expressed himself pointedly in regard to the work today.

"I am no street builder, but I will say I do not like it. The aldermen of the Second ward undertook to make a start on street building by giving us a good macadamized road. We know Mr. Watson to be a worker and a practical man in this kind of work, but unless the material is there it is impossible to have satisfactory results. 'No, I do not think it wise to build another foot of macadamized street unless proper material can be had. I understand there is considerable objection by the abutting property owners who will be called upon to pay a share of its cost. I am convinced that the Second ward aldermen, city engineer and contractor did their utmost to give us a satisfactory street, and one that was supposed to be a sample for more of them, but think they have failed to do so and that a halt should be called.'"

McNAMARA sells hardware.

ALTHOUGH the thermometer has a habit of reaching the one hundred almost daily, the local doctors say there is very little sickness around the town. This is rather out of the ordinary, as the hot weather generally seems to make the doctors busy.

BECK county applicants are something of a rarity, but Frank Pennycook brought in a painful today and samples were left in The Gazette's files. Mr. Pennycook raised the trees from seed on his farm eight miles north of the city. He now has five trees and two bore twelve quarts of fruit this summer.

Where He Drew the Line.

With more or less of humorous intention, perhaps, Col. William M. Olin, secretary of the commonwealth of Massachusetts, attributes to Col. T. W. Higginson an anecdotal jibe at military titles. The secretary tells the Boston Times that Colonel Higginson was traveling in the south a few years after the war, and chanced to fall into talk with a farmer who had engaged a number of old soldiers to help in the haying. "You see over there where those four men are working?" asked the farmer. "Well, all of 'em fought in the war. One of 'em was a private, one of 'em was a corporal, one was a major and that man 'way over in the corner was a colonel." "Are they good men?" asked Higginson. "Well," said the farmer, "that private's a first-class man, and the corporal's pretty good, too." "But how about the major and the colonel?" "The major's so-so," said the farmer. "But the colonel?" "Well, I don't want to say nothin' against any man who was a colonel in the war," said the farmer, "but I've made up my mind I won't hire no brigadier-generals!"

### LAST SITES SAID OVER REMAINS OF DEAD RESIDENTS

Mrs. Schoolcraft's Funeral Attended by a Large Number of Old Citizens—E. D. Williams Escorted to the Grave by Many Old and Sorrowing Associates.

This afternoon at 2 o'clock the remains of Mrs. George Schoolcraft were laid to their final rest. The funeral was held from her late residence on Ruger avenue, and was attended by a large gathering of relatives and friends. The officiating clergyman was Rev. B. H. Pender, and the pall bearers were Joshua Haskin, Thomas Edden, Charles Randall, John Harvey and James Colwell. The interment was in Oak Hill cemetery.

#### E. D. Williams

Yesterday at 2:30 o'clock was held the funeral services over the remains of the late E. D. Williams, from the residence of his grandmother, Mrs. Randall Williams, No. 8 Cherry street. The Rev. J. S. Smith was the officiating clergyman, the pall bearers being Herman Knowles, Harry Hinkley, George Cole, John Crowley, Jesse Brooks, John Watson, William Hartley, and Edward Russell. A beautiful and impressive song service was rendered by a quartette consisting of Messrs. F. J. Barfoot, H. Carney, Mrs. A. W. Hall and Miss Cora Anderson. The interment was in Oak Hill cemetery.

#### Spotted Human Beings.

On the banks of the River Purus, in South America, is to be found a peculiar tribe of people, men, women and children, who have spotted skins of black and white. They live on the river banks or in the floating settlements in the lagoons, and pass their whole lives in fishing. In a district of Barbadoes, West Indies, known as Scotland, the majority of the residents are half-breeds by inter-marriage of half-caste or colored natives with Europeans. These people are more or less spotted with large brown marks, resembling exaggerated sun-freckles, the other parts being of a high flesh-colored tint. Being dressed in European costume, this peculiarity is not much observed, except in the face and neck. It is supposed to be a form of leprosy. These people are known by the nick-name of "Red Legs."

#### How to Pronounce the Name.

How to pronounce the name of the Spanish warship recently at anchor in New York bay has been a subject of much curiosity among Americans. The name of her commander, Capt. Eulate, is pronounced as if spelled Ay-o-o-lah-tay, the first two syllables run together a little, the third accented and the last very short. He pronounces his ship's name "Bith-kyeah," or as nearly as that as the American tongue can get at it. The second syllable rhymes with "rye," and is nearly two syllables, the two sounds being run close together.

## SPAIN WOULD HAVE PEACE.

Begins Negotiations That May End the War.

### APPEAL TO THE PRESIDENT.

French Ambassador Calls at the White House and Makes the Official Statement That Spain Is Willing to Consider Terms of Peace.

Washington, July 27.—About three months ago, almost to the day, congress passed resolutions declaring that a state of war existed with Spain. Tuesday Spain took the first well-defined step to bring about a cessation of hostilities. The French ambassador, accompanied by his secretary of embassy, called at the white house, and under instructions from his government and at the request of the Spanish minister of foreign affairs, opened peace negotiations by declaring that Spain was ready to consider terms. The interview between the president and Secretary Day and the French ambassador and his secretary was general in character and nothing was accomplished aside from the formal statement that Spain was prepared to treat for peace.

It will now become the duty of the president to give a formal reply to the advances and he will do so by declaring the readiness of this government to enter negotiations provided Spain will surrender Cuba and Porto Rico. This is as far as the position of the United States has been decided upon. Spain must leave the western hemisphere. What conditions this government will exact as to the Philippines and other Spanish territory in the Pacific as a condition of opening peace negotiations has not been definitely determined. It may be that with the Spanish flag withdrawn from the western hemisphere the president and his advisers will leave the disposition of the Philippines to be considered in the negotiations for peace, but it is definitely ascertained that no conditions of peace will be considered until Spain has evidenced her sincerity by withdrawing from Cuba and Porto Rico.

It is stated on high authority that a concert of European powers compelled Spain to sue for peace. They realized the utter helplessness of the Spanish arms and the uselessness of her further continuing the war. It is known that the announced intention of the United States to send Commodore Watson's fleet to Spain has been exciting apprehension in Europe. The danger of complications growing out of the visit of the raiding squadron was so apparent that rather than risk that the powers commenced to bring pressure to bear upon Spain to recognize the inevitable and take the initiative to restore peace. It is not known to what extent the European governments have gone in the way of an agreement to protect the Spanish throne against domestic revolution. If the negotiations now opened excite the Spanish people to mob violence it may be necessary for assistance to be sent the boy king from across the Spanish borders. May be the mere announcement that the dynasty has the support of the armies of neighboring nations will be sufficient to prevent mob demonstrations.

It is not believed that President McKinley would consent to consider any proposal for peace unless he had positive assurances that Spain will accept practically his own terms. More than once he has indicated to intimate friends what he would regard as a basis of settlement which would be at once fair to Spain and just to the United States. The terms which he will probably submit to the Madrid government may be briefly summarized as follows:

1. The independence of Cuba.
2. The retention of the island of Porto Rico as a permanent possession of the United States.
3. The retention of the Philippine islands as a permanent possession of the United States.
4. A coaling station in the Carolines.
5. A coaling station in the Canaries.
6. The payment of an indemnity by Spain which, added to the values placed upon Porto Rico, the Philippines and other Spanish concessions, will cover all the expenses incurred by this government in the prosecution of the war. It is possible that if we secure Porto Rico and the Philippines there will be no demand for a money indemnity.

**Bourgeois Crew Blameless.**  
Paris, July 27.—Capt. Aubert, who was commissioned by M. Lockroy, minister of marine, to inquire into the sinking of the General Trans-Atlantic line steamer La Bourgogne, has made his report. He refutes the charges of brutality and cowardice made against the crew of the steamer, and declares that if the reprehensible acts were committed they were attributable to foreign sailors who were among the steerage passengers.

**Cuban Generals Are Sulking.**  
Washington, July 27.—It is reported that Gen. Garcia has retired to Balra and Gomez is sulking at Las Villas and that neither will co-operate with the American forces owing to Gen. Shafter's refusal to turn the government of captured territory over to the insurgents.

**Prince Henry Goes to Korea.**  
Berlin, July 27.—A dispatch from Kiao-Chow announces that the German war ship Deutschland, having Prince Henry of Prussia on board, started for Fusan, Korea, yesterday.

### POWER OF SPAIN BROKEN.

Morgan Thinks She Should Be Made to Yield Her Possessions.

Washington, July 27.—Senator Morgan of Alabama, senior democratic member of the foreign relations committee of the senate, regards the peace proposals as a sign of submission by Spain. "The power of Spain is broken," he said, "and it is plain that there is nothing to stop us now, short of the Spanish border."

Concerning the terms of peace, Senator Morgan has clearly defined ideas. "My first proposition," he explained, "would be the complete surrender by Spain of all territory over which the flag floats. This would include Cuba, Porto Rico, the Philippines, the Carolines, and the Ladrones. I would make this surrender the subject of a separate and exclusive treaty. I would demand of Spain a surrender unconditional in every particular and with any reference to what we may wish to do with the territory hereafter. I would not allow any 'ifs' nor 'ands' about it. This treaty should be in such terms that the United States can be free to act without any conditions."

**Will Be Used as Transports.**

San Francisco, July 27.—A special from Vancouver, B. C., states that the Canadian Pacific Railway company's steamships Tartar and Athenian are anchored in Vancouver harbor, having been taken off the Klondike route. Their stores are being removed and they are to become United States transports. The Athenian is registered at 4,600 tons and is constructed to carry 1,500 men, and the Tartar is a 4,000-ton ship, built to accommodate 1,200. Both ships can travel seventeen knots an hour.

**Illinois Banking Law Upheld.**

Chicago, July 27.—The state law making it a crime for bankers to receive deposits when insolvent was sustained yesterday in the United States circuit court in a decision rendered by Judge Showalter. The case on hearing was on a writ of habeas corpus filed in behalf of E. S. Dreyer and Robert Berger, the ex-bankers who were indicted in February, 1897, on the charge of receiving deposits after their bank was insolvent.

**Wheat Crop in Northwest.**

Tacoma, Wash., July 27.—Crop reports from eastern Washington show that the wheat crop of the Palouse district is now out of danger from hot winds. This insures a crop of about 30,000,000 bushels in Washington, Oregon, and Idaho, the Willamette valley included. This will be the largest crop ever grown in the northwest, and will partially compensate for the crop shortage in California.

**Troops for Porto Rico.**

Washington, July 27.—About 22,000 troops are already under orders to take part in the Porto Rico campaign. Some have reached the island, some are steaming thither, others are boarding ship, and many have not yet left their camps in the United States. It is asserted in official quarters that from 10,000 to 15,000 more men will be ordered to Porto Rico as soon as the transports are available to carry them.

**To Take Prisoners Home.**

Madrid, July 27, via Paris.—The transatlantic fleet to bring home the Santiago prisoners sails today. Capt. Aumon, minister of marine, says Admiral Cervera's officers will not return with the Santiago prisoners, but that their return will be negotiated with the United States government. He denies having demanded the expulsion of Don Carlos from Belgium.

**More Precautions by Spain.**

Gibraltar, July 27.—Alma Point light, near Ceuta, the Spanish penal settlement on the coast of Africa, will be extinguished until further orders.

## LATE NEWS BY TELEGRAPH

## DECEIVED THE SPANISH.

Gen. Miles Made a Change in His Plans.

## CHOSE NEW LANDING PLACE.

Town of Guanica, Practically Unprotected, Seized by the American Troops, and a Foothold Obtained on the Island of Porto Rico.

Port of Guanica, Island of Porto Rico, July 25 (via the Island of St. Thomas, D. W. I., July 27).—The United States military expedition, under the command of Maj.-Gen. Nelson A. Miles, commanding the army of the United States, which left Guantanamo bay during the evening of Thursday last, July 21, was landed here successfully Tuesday after a skirmish between a detachment of the Spanish troops and a crew of thirty belonging to the launch of the United States auxiliary gunboat Gloucester, formerly J. Pierpont Morgan's steam yacht Corsair.

Four of the Spaniards were killed, but no Americans were hurt. The troops were pushed forward promptly in order to capture the railroad leading to Ponce, which is only about ten miles east of this place.

From Ponce there is an excellent military road running eighty-five miles north to San Juan.

The whole of Gen. Brooke's force, with the New Orleans, Annapolis, Cincinnati, Leyden and Wasp, is expected here within twenty-four hours.

The Spaniards were taken completely by surprise. Almost the first they knew of the approach of the army of invasion was in the announcement contained in the firing of a gun from the Gloucester, demanding that the Spaniards haul down their flag, which was floating from a flagstaff in front of a blockhouse standing to the east of the village.

The first couple of three-pounders was fired into the hills right and left of the bay, purposely avoiding the town, lest the projectiles should hurt women and children. The Gloucester then hove to within about 600 yards of the shore, and lowered a launch having on board a Colt rapid-fire gun and thirty men under the command of Lieut. Huse, which was sent ashore without encountering opposition.

Quartermaster Beck thereupon told Yeoman Lacy to haul down the Spanish flag, which was done, and they then raised on the flagstaff the first United States flag to float over Porto Rican soil.

Suddenly about thirty Spaniards opened fire with Manner rifles on the American party. Lieut. Huse and his men responded with great gallantry, the Colt gun doing effective work. Normen, who received Cervera's surrender, and Wood, a volunteer lieutenant, shared the honors with Lieut. Huse.

The spirit of the troops, men and officers is admirable. The Massachusetts and Illinois contingents, which have been cooped up on board the Yale and Rita for a fortnight, will be delighted to get ashore, and all will be well protected by the artillery before a serious advance is begun.

The town of Ponce is sure to fall shortly before the combined attack of our army and navy. The main fighting until San Juan de Porto Rico is reached will be along the line of a splendid military road leading from Ponce to San Juan. But every precaution will be taken to lessen our casualties, even to the use of the street shields, of which a supply was brought with the expedition.

The health of the troops is excellent except among the Massachusetts men. They have been packed on the Yale for about fifteen days, and thirty cases of typhoid fever have developed among the soldiers. Parker of the Sixth Massachusetts died on Friday and was buried at sea.

## SAYS WAR PRETEXT WAS A LIE.

Berlin Newspaper Publishes a Harsh Criticism of United States.

Berlin, July 27.—The Kreuz Zeitung, the leading conservative and agrarian organ, says: "The most interesting fact of the war is the political defeat of the Americans. They displayed on their shield the noble impulse of a high minded republic to liberate the downtrodden inhabitants of Manila and Cuba, to whom Spain's yoke was unbearable. This was the pretense for an outrageous war, and are the freed people rejoicing with their saviors? Are they throwing themselves at the feet of their unselfish guardians? No, they hate them more than they do their pretended oppressors. They testify that the pretext for the war, in which even a number of German simpletons believed, was a big lie."

## LIST OF THE FALLEN.

Shafter's Official Returns—Total Reached 1,595.

Washington, July 27.—The first full and authentic list of casualties of the battles before Santiago has reached the war department in an official communication from Gen. Shafter to Adj.-Gen. Corbin, dated July 12, 1898. Gen. Shafter says he reports the names of killed, wounded and missing in action at El Caney and San Juan July 1, 2 and 3. "The total number of casualties was 1,595, divided as follows: Killed, 23 officers and 208 enlisted men; wounded, 50 officers and 1,208 men; missing, 21. This missing are supposed to

be dead, as, so far as known, the Spanish forces took no prisoners.

## TO STAY IN CUBA FOR PRESENT.

Washington, July 27.—The disposition to be made of the troops of the Fifth army corps, now stationed in Santiago province, is still a question with the war department. The administration appreciates the advantage to be derived in moving the soldiers to a place in the northern part of the United States, where they can recuperate from the hard campaign in Santiago and where they will be removed from the danger of contagion and infection encountered in a tropical climate. Several objections to an immediate movement of the troops from Cuba exist, however, and there is no near prospect that Shafter's army will be ordered to the United States.

## POWERS AGREE AS TO PHILIPPINES.

London, July 27.—A correspondent of New York World cables as follows: The Daily Mail's Madrid correspondent says: "There is excellent reason for believing that a formal agreement has been arrived at by the powers after protracted negotiations to oppose the retention of the Philippines by the United States or the cession of any part of the archipelago to any nation. The negotiations were originated and carried through chiefly by Germany."

## HINT FOR GERMAN MERCHANTS.

Berlin, July 27.—German firms in Manila, who have asked the government to obtain indemnity from the United States for losses incurred by them through war have received a semi-official hint to wait until the end of hostilities, and to meanwhile quietly trust the government, which will see that interests are safeguarded.

## LEE IS TO GO TO PORTO RICO.

Washington, July 27.—Orders have been issued for the equipment of the Seventh army corps with arms and all necessary material for active service, and it is understood that the corps will be sent to Porto Rico. The Seventh corps is commanded by Maj.-Gen. Fitzhugh Lee, and is encamped at Jacksonville. It consists of about 10,000 men.

## TO EXPEL FOREIGN REPORTERS.

Madrid, July 27.—The question of expelling foreign correspondents from Spain is growing more active. The newspapers assert that there are a number of American journalists in various parts of Spain who are making valuable information to the United States, which is thereby enabled to capture Spanish ships, stores, and munitions.

## IMMUNITIES START FOR SANTIAGO.

Washington, July 27.—The war department has received information that the transport-ship Berlin has left New Orleans for Santiago, having on board the two regiments of immunes recently in rendezvous at Covington, Fla., and Galveston. The immunes will be used as a permanent garrison in Santiago.

## PEACE COMMISSION POSSIBLE.

Washington, July 27.—A prominent public man, who said he did not in any way speak for the administration, said he presumed that when the negotiations approached a stage where terms were to be considered no doubt a commission would be appointed by the president to receive and propose terms to a like commission from Spain.

## LEADER OF INSURGENTS KILLED.

Madrid, July 27.—Advices received from Havana say that the Spanish troops have had an encounter with the insurgents at Jicotea, in the Porto Principe province, in which the Spanish lost three killed and thirteen wounded. The leader of the insurgents was killed.

## SPAIN MUST GIVE UP TWO ISLANDS.

London, July 27.—The London morning papers agree that it will be impossible for Spain to pay indemnity, and that it is improbable that the United States will demand money compensation. They all concede that the Spanish flag has gone forever from Cuba and Porto Rico.

## MAY TAKE CLENFUEGOS.

Washington, July 27.—Clenfuegos may be taken by the forces of the United States before the general movement is made against Havana. The appeal made by the starving Cubans in the city of Clenfuegos has had a very strong effect upon President McKinley.

## DID NOT REFER TO DIEDERICH.

Berlin, July 27.—The report that Dr. Von Holleben, the German ambassador at Washington, has presented a letter from the emperor to President McKinley disavowing the action of Admiral Diederich in Manila bay, is semi-officially contradicted.

## CONTRADICTION SAGASTA.

Madrid, July 27 (via Paris).—Senor Sagasta denies the existence of official peace negotiations, but Duke Almodovar de Rlo, minister of foreign affairs, says negotiations of a private character have been opened, due to private initiative.

## ANNEXATION FEELING GROWS.

Madrid, July 27.—A dispatch to the Imparcial from Havana says that the feeling among Spaniards and Cubans of good position through the island is growing in favor of annexation to the United States as opposed to independence.

## NEW YORKERS TO BE A GUARD.

San Francisco, July 27.—The steamer Lakme and North Fork will leave here Saturday for Honolulu with 750 men of the New York volunteer regi-

## SURRENDERED TO DEWEY.

Augusti Reported to Have Given Up Manila.

## POSITION WAS UNTENABLE.

Lack of Food, Water and Ammunition Made It Impossible for the Spaniards to Hold Out Longer—News Comes from Madrid.

Madrid, July 27.—Information has been received here to the effect that Capt.-Gen. Augusti has surrendered the city of Manila to the American forces commanded by Admiral Dewey and Gen. Anderson and Greene.

The position at Manila has been causing the deepest anxiety of late. The government believes that the town has been bombarded by the American warships and that it was concurrently attacked on the land side by 12,000 Americans and 20,000 rebels.

Capt.-Gen. Augusti has about 10,000 European soldiers, sailors and marines. He has been sorely embarrassed by the non-combatants, but he was nevertheless expected to make a prolonged resistance, unless a lack of provisions and water compelled him to consider the sufferings of the inhabitants.

In any case it has been understood that he would only surrender to Admiral Dewey.

The Spanish garrison was short of ammunition, and food and water were both very scarce, the insurgents having control of the pumping works, and having surrounded the city so as to prevent any supplies being sent to the enemy.

It is believed that rather than yield to the insurgents the captain-general decided to give up the city to the Americans.

Several days ago a message was received by the minister of war from Augusti stating that an attack on the city by the American forces was expected at any moment, and that grave events were about to occur. It is now believed that this was intended as a warning to the ministry that the city would be given up to avoid useless bloodshed.

## WATSON SOON TO SAIL.

Eastern Squadron Will Start for Spain Early in August.

Washington, July 27.—The eastern squadron, under Commodore Watson, is to sail between Aug. 1 and 10. This time was decided on Tuesday by the war board, though peace prospects may change all this. It was said at the department that notwithstanding some of the vessels of Admiral Sampson's fleet will be ordered to New York for repairs, the eastern squadron will remain intact.

Orders have been sent to Commodore Watson to hold himself in readiness to sail on any day after Aug. 1.

## SEVEN MEN AT WORK.

Pana, Ill., July 27.—The Penwell and Pana Coal companies' mines for the first time since attempting to resume operations with non-union miners, failed to blow their whistles Tuesday morning and made no attempt whatever to operate the mines. In fact, they had their mules removed from the mines. At the Springside mine, under a heavy guard of deputy sheriffs with Winchester, seven men, boarding in the company's house near the shaft, resumed work.

## CORN NEEDS RAIN.

Washington, July 27.—The crop bulletin of the United States department of agriculture for the week ending July 25 shows that the cornfields in the states of Nebraska, Kansas, Iowa, Missouri, Illinois, Indiana and Ohio are generally in need of rain. In portions of Iowa and Missouri the crop is threatened with serious injury unless rain falls at an early date. The states named are the great corn producing states, raising considerably more than one-half of the product of the United States.

## HAWAII'S EX-QUEEN NEAR DEATH.

San Francisco, Cal., July 27.—The Evening Post says that the steamer Gaelic, which left this port for Hongkong and Yokohama and Honolulu, carried ex-Queen Liliuokalani to the Hawaiian Islands for the last time and that she had but a short time to live, the ravages of cancer having made such headway that medical aid can only defer death.

## TO FIX WINDOW GLASS SCALE.

Marion, Ind., July 27.—Joel G. Sayer, treasurer of the American Window Glass association, has left here for Put-in-Bay to attend the conference of the joint committee which is to fix the window glass scale for the coming year. It is thought that this meeting will result in a settlement of the scale.

### CUBA'S DEADLY CLIMATE.

Malaria and Yellow Fever Are Rapidly Spreading.

Siboney, Cuba, July 27.—The predictions so freely made before the invasion of Cuba that the climate would prove the worst foe of the American army has come true.

Within the last few days the number of fever cases which have developed has been uncomfortably large, and has given the officers in charge of the expedition much concern. At Gen. Shafter's headquarters alone there were in the fever hospital 293 cases this morning, with every prospect that many additions would be made in the course of the day. Of these the great majority were of the malarial type; the remainder were typhoid, with three exceptions. These were said to be non-malignant yellow fever. The patients had been brought from the front within a week.

The advice given probably to each and every soldier before he left the United States as to how he might avoid the climatic dangers of Cuba could not in most instances be followed. The water, which was apparently good, was not boiled, for the good reason that there was nothing in which to boil it. One Massachusetts company was fortunate enough to have pots and kettles enough for the purpose and a captain energetic enough to enforce the order, and the men drank nothing but fluid which had gone through the heating process. The remainder of the army used the raw liquid.

Neither did the soldiers refrain from sleeping in the open air at night. On their forced marches they threw away nearly everything they had except their rifles, cartridge belts and canteens. When the halt came they simply threw themselves on the ground and slept there. Big camp fires were not and could not be built, for the simple reason that they would be beacons to the enemy and also because dry firewood is scarce in a country so thoroughly saturated with moisture as Cuba is at this season of the year.

A most serious error was not promptly burning all the old buildings in Siboney as soon as the town was occupied. The same should have been done with the partially ruined houses at Seville and El Paso. Instead they were taken possession of by soldiers, correspondents and others unprovided with tents and used as sleeping places and for shelter from the heavy rains. Had all the old "shacks" been destroyed at the start the outbreak of yellow fever would probably have been prevented.

Civil Engineers in Session.  
Detroit, Mich., July 27.—The convention of the American Society of Civil Engineers opened here Tuesday. A preliminary business meeting was held and temporary committees were appointed. Several prominent army engineering officers are among the members present.
